

# CNAM Board of Directors Nomination

## Leanne Brannigan

My name is Leanne Brannigan and as a long standing CNAM member, I am pleased to submit my nomination for the CNAM Board of Directors. The required and requested information can be found below.

### **Full Name**

Leanne Brannigan

### **Board Position**

Regional Director for Ontario or Director at Large

### **Current Professional Role/Responsibilities**

I am the Manager of Corporate Asset Management at the Region of Peel and have been foundational in the development of Peel's unique Corporate Asset Management Strategy incorporating Council endorsed levels of service, lifecycles and risk to set organizational priorities and inform the overall budgets and capital plan. I have been key in establishing the internal relationships necessary for rolling the program out

across all of Peel's diverse Services ranging from Water Linear infrastructure through to Social Housing and everything in between. I lead a team of highly dedicated and skilled professionals with specialized asset management and financial expertise.

## **Related Experience**

In addition to my municipal experience, I have a significant National and Regional peer network along with broader Asset Management (AM) education, industry and volunteer experience. I am the founding Chair of Asset Management Ontario leading it from a working group to an incorporated Organization with contracts for service delivery and capacity building throughout Ontario, focusing on smaller and more rural municipalities. I also serve as a member of FCM's MAMP Technical Working Group, was one of the Provincial founders of Asset Management Canada, have been appointed to OGRA's AM Certification Board and was awarded MFOA's 2017 Leadership Award.

## **Interest and Vision for CNAM**

I feel privileged to have found my calling in this industry. No matter what challenge we face I truly believe the way we advance asset management nationally and regionally is through leadership, innovation and collaboration, the pillars of CNAM's strategic plan. These same pillars have guided me professionally, both in my career and volunteer efforts. I would be honored to serve on the CNAM Board as I feel I have the expertise and can add value in the areas of AM outreach and education, promotion, networking and strategic organization building. Giving back to the industry is fundamental to me.
